LEGAL AND ADDITIONAL INFORMATION

THE NEW BUSINESS EXPERIENCE

**SAMSUNG.
PRINTING INNOVATION.**

In modern society, keeping up with technology is critical to the success of any business or the productivity of any individual. The choice of technology can be the difference between survival and leadership.

As the workplace becomes more digitized and the workforce becomes more mobile, the printer and copier device must also adapt and evolve.

Printer technology and satisfaction lags the electronics innovation most employees expect. Nor has there been any major entrant to help shake change.

Until now.

Samsung is applying its ingenuity to develop breakthrough printing solutions that ignite productivity. Only Samsung has the electronics expertise to design and build a printer that fits the way society works today.

Printing for the modern world has arrived.
Samsung is printing innovation.

About Samsung Electronics Co., Ltd.

Samsung Electronics Co., Ltd. is a global leader in technology, opening new possibilities for people everywhere. Through relentless innovation and discovery, we are transforming the worlds of TVs, smartphones, tablets, PCs, cameras, home appliances, printers, LTE systems, medical devices, semiconductors and LED solutions. We employ 286,000 people across 80 countries with annual sales of US$216.7 billion. To discover more, please visit www.samsung.com.

GENUINE SAMSUNG SUPPLIES

Real value. True performance.
Always make the right impression by using genuine Samsung supplies.

The New Way of Printing, Innovated for Smarter Business

THE NEW BUSINESS EXPERIENCE

**SAMSUNG.
PRINTING INNOVATION.**

Take business performance to a new level with smart printing

To keep up with the fast-paced business world, businesses today are embracing bring-your-own-device (BYOD) policies. This is leading to more efficient, seamless operations and highly productive, always-on employees using smart intuitive technology in the form of smartphones and cloud computing.

Businesses now want to extend that smart technology to all devices to gain the same level of intuitiveness and flexibility. A printer is no exception. From scanning to printing, printers are expected to have the same smart functionalities as cutting edge mobile devices. Businesses seek smart printing solutions that can be easily managed while still delivering powerful performance at reduced costs.

Samsung's new A4 mono multifunction printer (MFP) SMART MultiXpress M5370LX / M4370LX provides smart usability that allows users to work faster and more efficiently using intuitive, easy-to-use controls. And with high-performance and optimized features, these printers can meet the demands of small work groups to large departments that depend on document handling efficiency, while minimizing total cost of ownership (TCO).

Convenient Applications & Widgets

Samsung SMART UX Center
powered by Android™

SMART Touch

Touch to print, just like on a tablet

The SMART MultiXpress M5370LX/M4370LX provides innovative usability through Samsung SMART UX Center as the very first Smart Android printing UX. Samsung SMART UX Center is a printing UX based on the Android OS and the first of its kind in the printing industry.

This user-friendly UX provides intuitiveness, usability and extendibility at the same time, which ensures perfect compatibility with various Android-based smart devices.

#### Enjoy preloaded applications and widgets

Printing applications are preloaded, including Copy, Scan/Send, Box, Job Status, Counter, Settings, Build Job, Address Book and Help, which provides users with more convenient usability. Plus, there are custom widgets for creating instant, one-tap access to frequently used functions.

SMART Use

Expand use with independent functions and extensibility

The interface also provides the Real Preview function from the preloaded applications, such as Copy, Send and Box. You can further extend usability with direct web access through the web browser to quickly print various web content, such as maps, pictures, emails and more without a PC.

Plus, you can access more useful features and solutions by downloading them through the Samsung printing app store.*

SAMSUNG

Boost productivity with ultra-fast performance

Work fast, wait less

Scan at high rates

SMART MultiXpress M5370LX / M4370LX is equipped with Dual-Scan ADF technology enabling them to deliver ultra-high, best-in-class scanning speeds. These workhorse MFPs can scan up to 55 single-sided images per minute (ipm)[1] and up to 80 double-sided ipm[2].

Faster print processing with zero fuss

SMART MultiXpress M5370LX / M4370LX prints at fast speeds of up to 53 pages per minute (ppm)[3]. A 1 GHz dual-core CPU provides the power and capacity to accomplish print and copy jobs of any size or complexity swiftly. Businesses can work smoothly and operate at a much more efficient level with high-performance speed printing.

Get sharper-quality print output

Samsung's unique Rendering Engine for Clean Page (ReCP) technology delivers professional-quality output with sharp text and clean images, ensuring a perfect-looking printout every time. The innovative technology automatically sharpens the focus of both graphics and text. And with a superior resolution of 1,200 x 1,200 effective dpi, your scans, printouts and company will always look professional.

Lower your TCO with cost-efficient solutions and supplies

Do more jobs, spend less

Save resources with low TCO printing

Businesses can handle heavy printing volumes while reducing labor costs with SMART MultiXpress M5370LX / M4370LX's ultra-high-yield toner cartridges and drums. Flexible options range from toners that yield 30,000 standard black and white pages, while drums yield 100,000 standard black and white pages. These long-life consumables ensure businesses get the most out of their resources, resulting in lower TCO.

Create the printing environment that suits your needs with customized, cost-efficient solutions

Samsung's Business Core™ Printing Solutions (BCPS) work as efficiently as you do by providing cost-effective and secure print operation, increasing productivity and simplifying management. The solutions require no dedicated server and IT resources and reduce unnecessary printing and supply use, lowering TCO. These essential printing solutions include:

Business Core Printing Solutions	Benefits
SecuThru™ Lite 2	Enhances document security and reduces costs with user authentication
Secure Login Manager	Guards valuable data and devices from unauthorized use
SmarThru™ Workflow Lite	Increases productivity with an automated workflow solution
Cloud Connector	Scans to and prints from the cloud with easy, secure access
Usage Tracker	Controls printing expenses by easily tracking device usage per user

The Samsung Wireless & NFC printing option* can be added to support various mobile printing solutions with just a tap, including:

· **User authentication:** Enable authorized users to tap and print to a Samsung MFP from their mobile devices.

· **Secure printing:** Authorize secure release of documents held in the printer's memory with the BCPS and just a tap on your mobile device.

· **Easy wireless setup:** Configure wireless (IP) print setup from your mobile device without complicated activation steps with just a tap.

· **Device cloning:** Clone standardized functions of an MFP with just a tap on your mobile device.

* The Wireless & NFC option will be available beginning October 2014.
